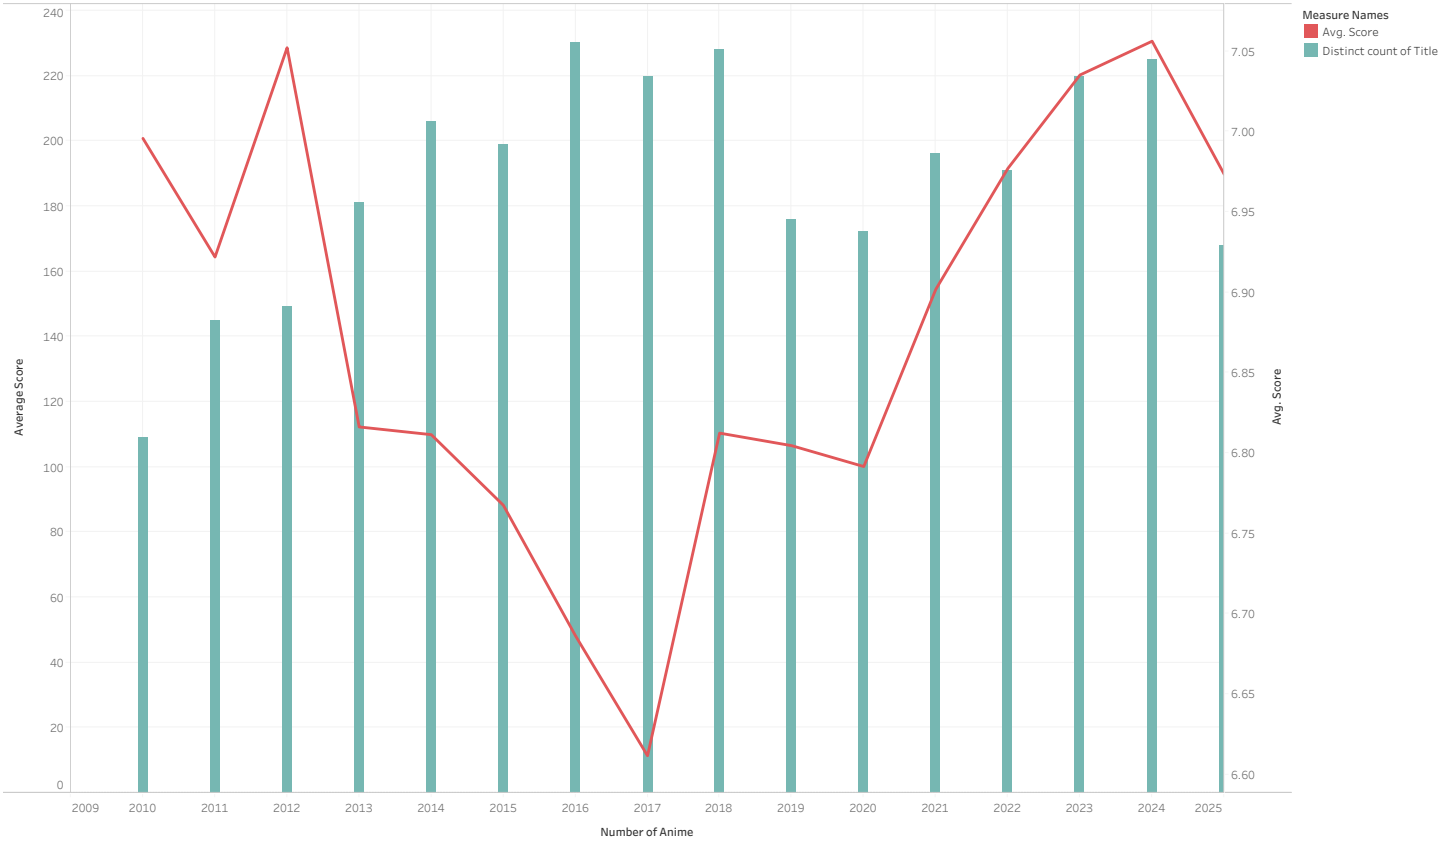
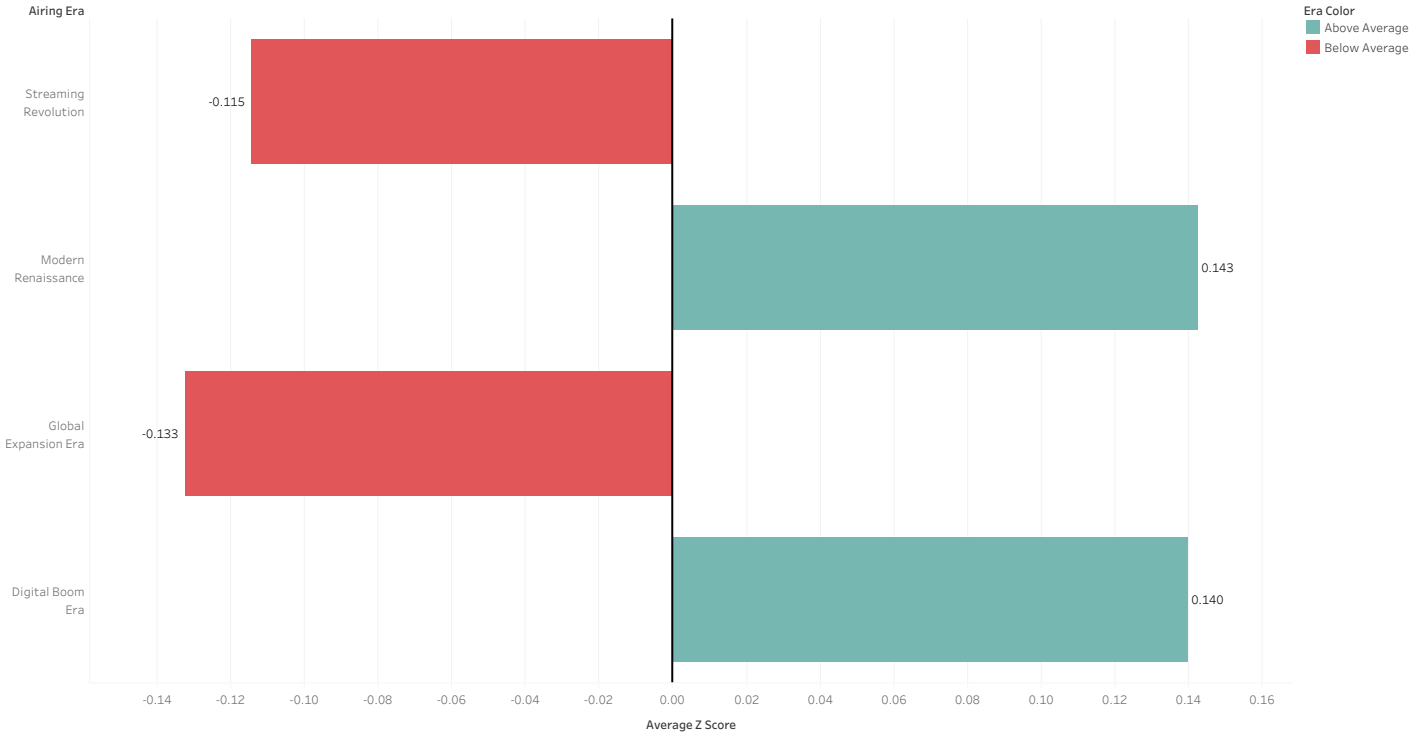
Production Boom

More Anime = Lower Quality?

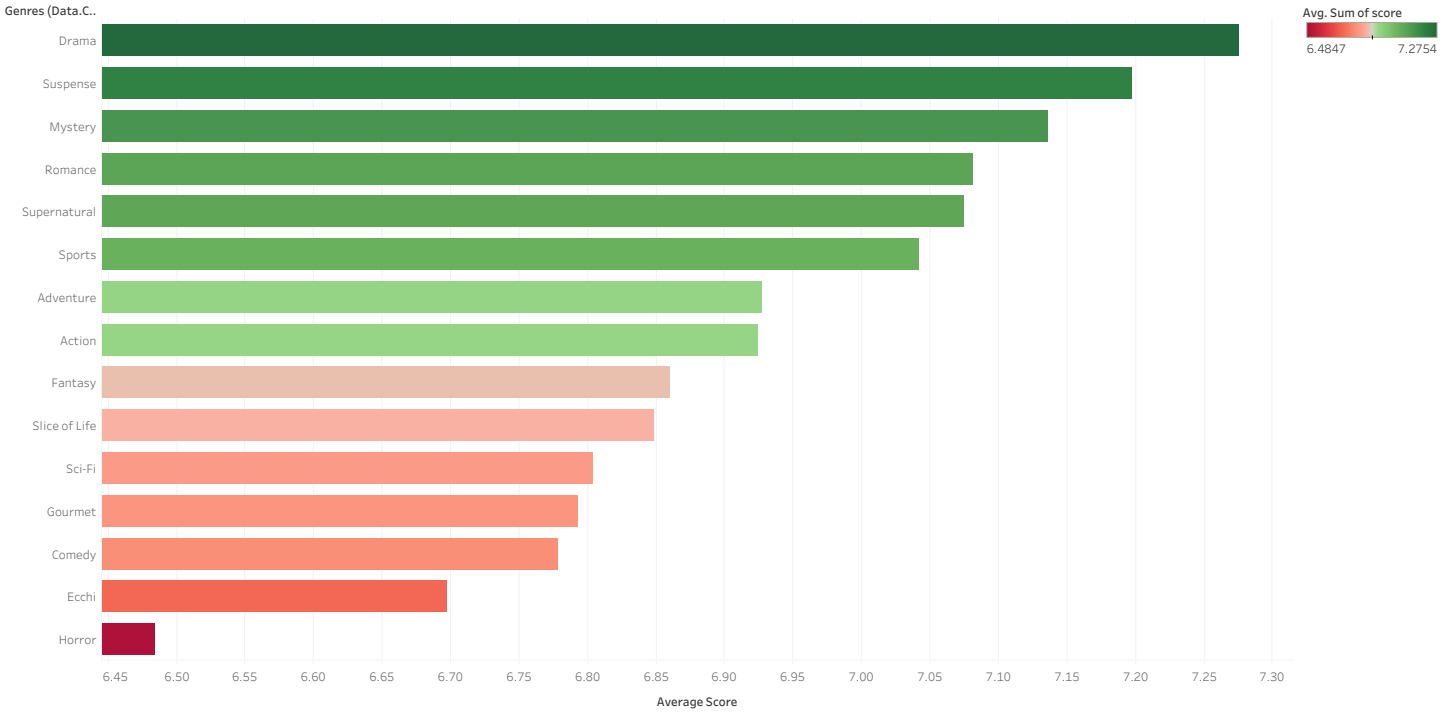


Era Quality
How Streaming Changed Quality



Genre Quality

Which Genres Win on Quality?

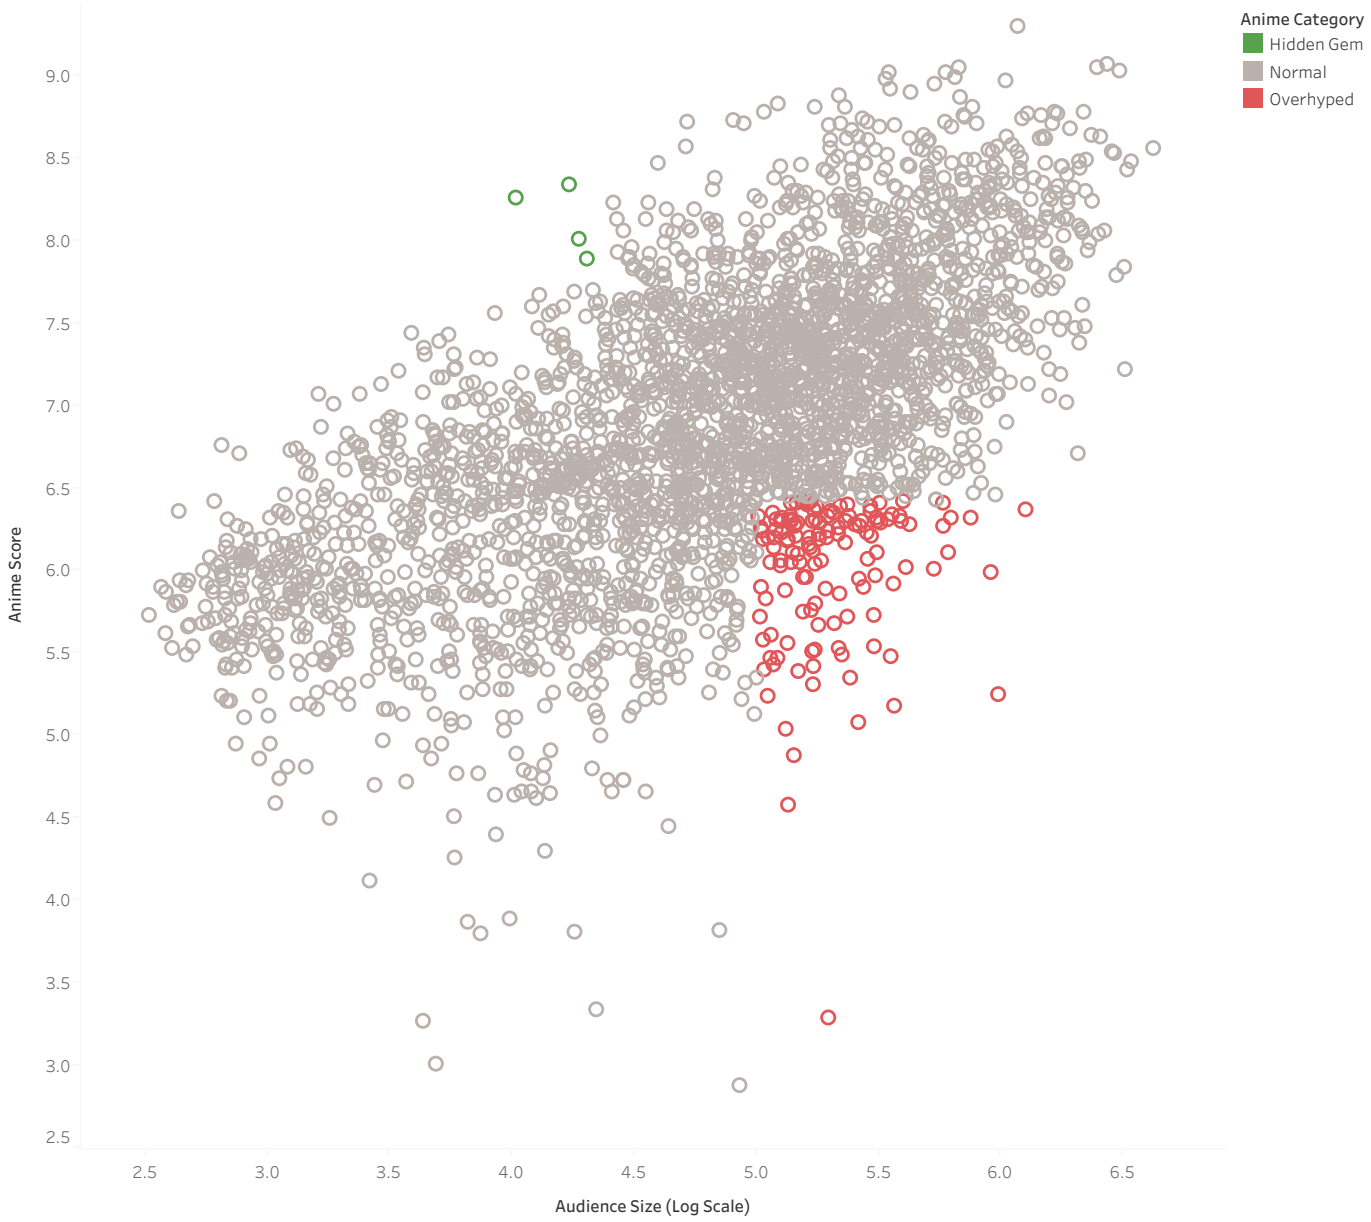


Quality Paradox

Does Popularity Equal Quality?

Hidden vs Overhyped

Fame Without Quality?



From Boom to Renaissance: The Evolution of Anime Quality

Anime production doubled 2010–2016 but quality fell during peak years	Streaming platforms initially hurt quality — Modern era shows recovery	Narrative genres score highest — volume always dilutes quality	Quality moderately drives popularity but franchise loyalty overrides it
